## **For cooperation and continuous support**

to the implementation of the Success Model developed in the framework of the “Passive House regions with renewable energy” (PassREg) project

(No IEE/11/072/SI2.615925)

We, the undersigned (name of local stakeholder), in support of our strong interest in

- Exploitation of the results of PassREg project as a mean for improving our regular activities and responding to the growing needs for implementation of Passive House solutions, methods and technologies,
- Their optimal integration in the process of introduction of low and zero energy buildings in the regional and national design and building practice,
- The optimal deployment of solutions analyzed and tested within the project on local, regional and national level,

### **Hereby declare our commitment to:**

- Continue our cooperation with (PassREg project partner) for sustainable introduction of the Passive House standard supplied by RES at regional and local level;
- Support the national and local authorities in implementation of policy-making instruments related to the achievement of the goals set in the PassREg Success Model;
- Engage in information and knowledge sharing activities within the PassREg network and disseminate information about PassREg’s Success Model and its application;
- Promote local successful practices and support, as to our abilities, local projects for new buildings and renovations meeting the Passive House standard;
